

**Statement of originality and copyright permission
Publishing Agreement**

Date:

To: The Editorial Board of the electronic journal GenObs

This original form must be signed and dated in ink and submitted with your completed manuscript to the journal GenObs. No paper will be published without a signed Publishing Agreement. This Publishing Agreement is:

BETWEEN:

the undersigned (names of all authors):

hereinafter referred to as "Authors" of:

paper's title:

book review's title:

and the journal GenObs:

Regarding the manuscript entitled,
....., submitted
to the journal GenObs and accepted for publication.

The Author(s) WARRANT(S) AND AFFIRM(S) THAT:

1. The manuscript submitted is ORIGINAL work and the sole property of the Author(s). It has not been published nor have significant parts of the work been published and it is not subject to publication in another journal.

2. The present manuscript has not been published anywhere in any form of publication (in any language) and it is not presently under consideration for publication anywhere in any form of publication.
3. The Author(s) has/have not signed any licence agreement or copyright/ownership permission with third parties that would prevent them from publishing in the journal GenObs.
4. When a manuscript has more than one contributor, regardless of the degree of involvement (one main author with secondary authors, or co-authors at the same level of involvement), all of the authors involved in the intellectual elaboration of the manuscript have been properly acknowledged.
5. When a manuscript has more than one contributor, all of the contributors have read and agreed to the final version of the document. The undersigned hereby agree to designate:

as the contributor who will receive all correspondence and who has enough authority to represent all of the authors as their authorized agent.

6. When a manuscript has more than one contributor (as specified in point 4), the journal GenObs is discharged from the responsibility of acknowledging all of the contributors and their level of involvement.
7. All of the contributors understand that the journal GenObs does not necessarily share the views and opinions expressed in the paper.
8. All quotations, citations, paraphrases and their respective bibliographical references have been properly identified and noted thereby guaranteeing the paper's ethics and reliability.
9. As required, written permission was obtained for any copyrighted material in the manuscript.
10. The Author(s) understand(s) that a source must be properly acknowledged and that permission to include it in the manuscript must be obtained from the copyright holder; this is the responsibility of the Author(s). Further, all trademark usage within the manuscript must be properly credited to its owner otherwise written permission to use the name must be granted and secured by the Author(s). The manuscript must not violate other copyright or proprietary rights, and it must not in any way contain libellous, defamatory or confidential material that could infringe upon any laws or contractual obligations. As such, the Author(s) agree(s) to indemnify and hold harmless the journal GenObs and its publisher from and against any and all legal fees, damages, or other costs resulting from proceedings related to this matter.
11. If the manuscript is accepted for publication, the Author(s) transfer(s) the manuscript's editing rights and copyrights to the editor of the journal GenObs (Trent University, Canada), **FREE OF CHARGE, EXCLUSIVELY AND FOR AN INDEFINITE PERIOD OF TIME**, which implies the following:
 - 11.1. The Author(s) accept(s) that, with their collaboration, the manuscript/paper will be modified by the editing team of the journal GenObs in compliance with the "Instructions for authors", as previously established and published in the official GenObs web page (genobs@trentu.ca), with regards to procedures, formatting, correction, editing, translation, publication, duration of the editorial process and other requirements set out in the aforementioned norms.

- 11.2. The Author(s) accept(s) that the manuscript/paper will be distributed through the Creative Commons 3.0 licence (for non-commercial use, with no derivative works). This means readers can download, save, copy and distribute the approved and published final version (post print) of the manuscript/paper for free, as long as it is not for commercial purposes, and will not generate derivative works. Readers must mention the journal GenObs as the primary publication source of the manuscript/paper.
- 11.3. The Author(s) consent(s) to the transfer of the manuscript/paper to reading, sound or voice files, or any other technical representation or device that is available, to facilitate access to the manuscript by people who are partially or totally blind, or who have other special abilities that prevent conventional access to it.
- 11.4. The Author(s) consent(s) to the publication and reproduction of the manuscript/paper, or part of it, in print and electronic media including the Internet and any other known or not yet known technology.
- 11.5. The Author(s) consent(s) to GenObs posting the electronic version of the manuscript/paper online and to enabling open access to it at all times from anywhere, through whatever physical or electronic means the reader might have at hand.
- 11.6. The Author(s) accept(s) any other usage, procedure, and known or not yet known system that will be associated with the editorial activities and purposes related to the journal GenObs.
- 11.7. The Author(s) agree(s) that GenObs will carry out or foster actions aimed at increasing the manuscript's visibility by publishing, reproducing, distributing, and disseminating it in all forms and media, and by authorizing other reputable third parties to do the same.
12. Reuse rights: the Author(s) also agree(s) that Trent University will grant the right to reuse the approved and published final version (post print) of the manuscript/paper to the Author(s) for any purpose including its online publication on any other webpage, as long as it is for non-profit purposes.
13. The Author(s) agree(s) to provide a contact email address to the journal GenObs, as well as all personal data needed to identify the authorship of the manuscript/paper.
The Author(s) also authorize(s) GenObs to publish the required personal data (first and last name, affiliation, city and country) together with the manuscript/paper. Any other data will be kept confidential by the journal GenObs and will not be disclosed to third parties without the AUTHOR(S) consent.
14. The Author(s) accept(s) that the submission and possible publication of the manuscript/paper in the journal GenObs will be governed by its editorial policies, the institutional regulations of Trent University, and Canadian law. Additionally, should a disagreement in criteria or a future dispute arise, it will be settled in accordance with Alternative Dispute (Claims) Resolution mechanisms and Canadian jurisdiction.
